SUMMARY

With months of experience in data analysis, I bring strong analytical skills and a commitment to driving business objectives through data-driven insights and top-tier reporting. I possess technical prowess with SQL and a notable track record of leading teams to success

SKILLS

Technical Skills
- **Programming language**:Python,SQL
- **Web Technologies**:HTML,CSS
- **Libraries**:Pandas,NumPy,Scikit-learn,Matplotlib,Seaborn
- **Visualization Tools**:Power BI,Tableau(Basic),MS Excel
- **IDEs**:VSCode,Jupyter Nootebook,Google Colab,Git&GitHub

Soft Skills
- Effective communication
- Eager and dedicated learner
- Curiosity and Learning Agility
- Adaptability

EXPERIENCE

Data Scientist Trainee
Regex Software Services

📅 01/2025- Present 📍 Jaipur, Rajasthan
- Contributed to data-driven problem solving by working on real-world scenarios that required structured analysis and insight generation
- Performed end-to-end data preprocessing including cleaning, transformation, and feature selection to improve model accuracy
- Throughout the process, I focused not just on making the model work, but on understanding why it works—so I could make smarter decisions and apply that thinking to real-world problems.

COURSES

Data Scientis
AU Ignite Academy

📅 04/2025 - present 📍 Jaipur Rajasthan
- Streamlined data extraction processes, increasing data handling efficiency by 15%.
- Designed and deployed interactive dashboards, reducing decision-making time by 25%.
- Improved data accuracy by 10% by refining data collection processes through close stakeholder collaboration.

EDUCATION

Bachelor of Technology
Rajasthan Technology University

📅 09/2022 - 05/2026 📍 Jaipur Rajasthan

Artificial Intelligence and data science
CGPA:-9.4
